WIDE RANGE OF APPLICATIONS

With the numerous templates in the NOVO AI Studio, you can get started straight away - without lengthy training processes:

CLASSIFICATION

Recognising the intention of the customer, classification of documents, e-mails and texts

DATA EXTRACTION

Recognition of content and extraction based on your use cases

SUMMARY AND VISION

Content from documents, e-mails and images simply and precisely summarised

APPLICATION EXAMPLE: SPEECH TO TEXT TO PROCESS

Call/voice message/...

transcription, analysis,
data extraction

transfer to target system

With NOVO AI Studio, voice files from phone calls, videos or chats can also be processed automatically in just a few steps. The data is not only processed in a structured manner, but also integrated directly into the relevant target system.

SIMPLE INTEGRATION INTO EXISTING SYSTEMS

Simple and seamless connection of AI to your systems: Our API enables you to fully utilise the potential of existing solutions (e.g. CMS, ERP, DMS, archives) and enhance them by connecting them to NOVO AI Studio.

LLM - CLOUD OR LOCAL?

NOVO AI Studio supports both cloud LLMs (Microsoft Azure AI) and locally hosted LLMs (Llama, Mistral). You decide which option you would like to use according to your needs. We will be happy to advise you!

The screenshot shows the NOVO AI Studio interface. On the left, there is a sidebar with navigation options: "Vorlagen", "LLM", "Ergebnisse", "RAG", and "Abmelden". The "LLM" option is selected. The main area displays "Large Language Modelle" with a filter icon. Below this, there is a table with columns: "Bereitstellung", "Modell", and "Aktiv".

Bereitstellung	Modell	Aktiv
① Lokal	llama3.1:latest	<input type="checkbox"/>
① Lokal	mistral-small3.2:24b	<input type="checkbox"/>
① Microsoft Azure gpt-4.1	gpt-4.1	<input checked="" type="checkbox"/>
① Microsoft Azure gpt-5-mini	gpt-5-mini	<input type="checkbox"/>

On the right side of the interface, there is a text box that reads: "Choose the right model for you: **CLOUD** for high speed or **LOCAL** for maximum control".

WE RECOMMEND:

CLOUD, when...

- Fast implementation required
- High processing speed is essential
- Cloud-affine IT landscape

HYBRID, when...

- Flexibility required
- Different AI models required for different tasks
- Data privacy requirements vary by document

ON PREM, when...

- Speed is not crucial (e.g. migration processes)
- IT security and compliance dominate
- Hardware infrastructure (GPU) available

NUMEROUS OPTIONS - MAKE IT SUITABLE FOR YOU!

INPUT:

PDF, images, Word, email, voice and more as needed

SIZE:

Up to 50MB / file, more as required

UPLOAD:

Manual & email integration (Office 365) & REST API

OUTPUT:

Results as JSON, PDF, mail and more as required

USE CASES:

Classification, Extraction, Summary, Speech to Text, Form Extraction, Checkbox Recognition, Image Analysis, Speech Recognition, RAG, others on request

SUPPORT:

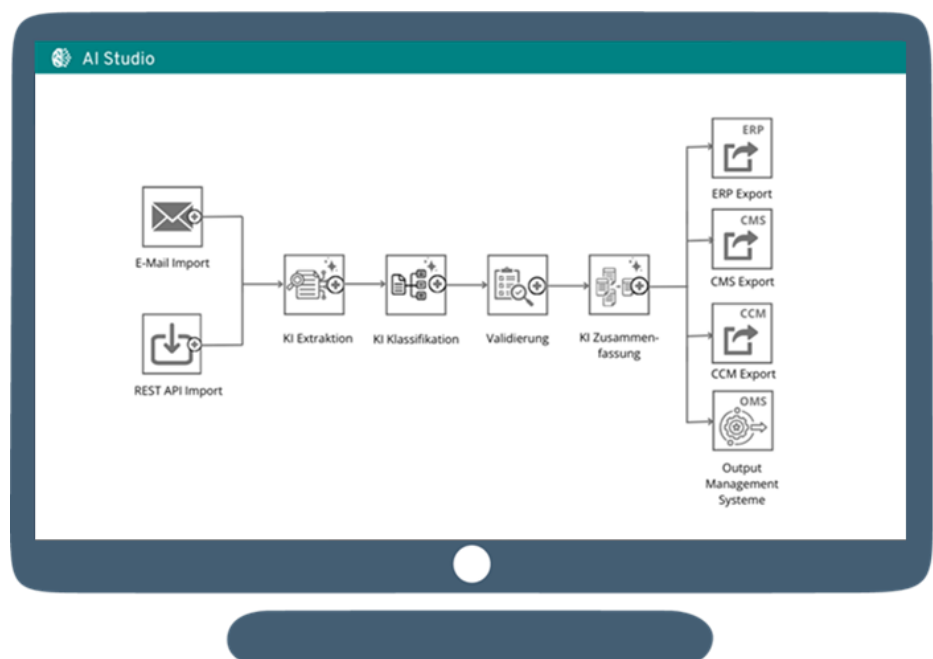

Via e-mail, chat, telephone, professional services

DATA PROTECTION:

DSGVO-compliant certified data center

A LOOK INTO THE SOFTWARE - PROCESS MODELLING

Whether you are an IT expert with programming knowledge or a business user - in **Workflow Design Studio**, the intuitive workflow configuration tool, you can design processes yourself based on your business requirements. This low-code approach allows you to remain flexible and independent. You can create your own workflow in no time at all using drag-and-drop.

WHY NOVO AI STUDIO IS JUST RIGHT FOR YOU!

SEAMLESS AI INTEGRATION INTO YOUR EXISTING SYSTEMS

Utilise **powerful LLMs** and **Generative AI** in your document and business processes in just a few steps.

INTUITIVE APPLICATION

Easily **configurable AI automation templates** – **low-code** makes it easy for your departments!

OPTIMAL PROCESS AUTOMATION

Automation modules **perfectly suited to your company** - customised in just a few minutes.

READY TO USE

Thanks to **powerful AI models** and **tried-and-tested templates**, there is no need for lengthy training with hundreds of test documents.

ABOUT US

With our software solutions, we help companies optimize their data-, document- and object-driven processes and make **hyperautomation** and **intelligent document processing (IDP)** possible.

At its core is an easy-to-manage, **low-code platform** that delivers **intelligent process automation (IPA)** and efficient digitization. Business workflows are highly automated through **integrated AI** for content and capture services.

NOVO AI Studio is the AI solution from inovoo. Together with the NOVO CxP platform, you get a clever combination of AI with other powerful technologies for maximum automation rates.
